

Aviation Project Manager

About Us

Aulick Engineering is a woman-owned small business that provides engineering design and construction management services for transportation and site related projects. Aulick provides quality professional services to airports, DOTs, municipalities, engineering firms, commercial developers, and private residents around the southeast.

Aulick Engineering offers team members the opportunity to grow at their own pace without being boxed into a typical role. Our closely-knit team will work directly with you to provide a challenging, rewarding, and hands-on experience in all aspects of our work. Team members are given the opportunity to work on numerous aspects of projects where they can be involved from concept design to construction. Aulick Engineering strives to provide a workplace where hard work is recognized and rewarded while still encouraging a healthy work-life balance. Our team members are kind, resourceful, respectful, and trustworthy and we are looking for others who share those values.

Job Description

We are currently looking for an Aviation Project Manager to work in our Atlanta, GA, Durham, NC, or Columbia, SC office. The ideal candidate should possess a desire to work for a fast-paced, growing, “never a dull moment” business and meet the qualifications listed below.

Qualifications

- Bachelor of Science in Civil Engineering
- Professional Engineer license required
- Minimum of 10 years of experience in a related field
- Aviation experience required
- Proficient in AutoCAD Civil 3D software
- Proficient in regional stormwater and erosion control permitting requirements and procedures
- General working knowledge of fundamental engineering principles including surveying, geometric design, hydraulics, grading, pavement design, construction administration, and utility coordination
- Proficient in Microsoft Office Suite

Responsibilities

- Manage site plan preparation, permitting, and approval process from concept to closeout, including construction phase services
- Manage, delegate workload, and train a team of engineering professionals
- Visit job sites for inspection and evaluation
- Ensure compliance with local, state, and federal jurisdictional requirements
- Manage clients and coordinate between team disciplines
- Develop and monitor project schedule, budget, and design to meet client needs
- Other responsibilities as assigned

Benefits

- Medical insurance
- Vision and dental insurance
- Healthcare and dependent care flexible spending accounts (HSA and FSA)
- Employer-paid short-term and long-term disability coverage
- Employer-paid life insurance and AD&D insurance
- 401k program with company match
- Paid time off
- Ten (10) paid holidays
- Fitness membership reimbursement
- Flexible hours and work-from-home days
- Company-provided equipment, including laptop and cell phone

Equal Opportunity Employer

Aulick Engineering is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, religion, national origin, age, sexual orientation, disability, veteran status, genetic data, or other legally protected status.
