

Stormwater Engineer

About Us

Aulick Engineering is a woman-owned small business that provides engineering design and construction management services for transportation and site-related projects. Aulick provides quality professional services to airports, DOTs, municipalities, engineering firms, commercial developers, and private residents around the southeast.

Aulick Engineering offers team members the opportunity to grow at their own pace without being boxed into a typical role. Our closely-knit team will work directly with you to provide a challenging, rewarding, and hands-on experience in all aspects of our work. Team members are given the opportunity to work on numerous aspects of projects where they can be involved from concept design to construction. Aulick Engineering strives to provide a workplace where hard work is recognized and rewarded while still encouraging a healthy work-life balance. Our team members are kind, resourceful, respectful, and trustworthy and we are looking for others who share those values.

Job Description

We are currently looking for a Stormwater Engineer to work in our Atlanta, GA, Durham, NC, or Columbia, SC office. The ideal candidate should possess a desire to work for a fast-paced, growing, “never a dull moment” business and meet the qualifications listed below.

Qualifications

- Bachelor of Science in Civil Engineering
- Zero to three (0-3) years of experience in a related field
- Engineer-in-Training (EIT) preferred
- Aviation experience preferred
- Proficient in AutoCAD Civil 3D software
- Experience in regional stormwater and erosion control requirements and procedures
- Proficient in Microsoft Office Suite

Responsibilities

- Prepare construction plans for aviation and civil site projects under the direction of a Project Manager, with many projects being focused on stormwater and drainage
- Ensure compliance with local, state, and federal jurisdictional requirements
- Typical projects will include grading and pond design, drainage pipe design calculations, spread calculations, ditch capacity analysis, culvert design inlet design, stormwater BMP design, technical reports, and associated plan production. Projects may also include pavement layout and design, utility coordination, and other aspects of an aviation/site development project
- Visit job sites for inspection and evaluation
- Attend client meetings as needed
- Other responsibilities as assigned

Benefits

- Medical insurance
- Vision and dental insurance
- Healthcare and dependent care flexible spending accounts (HSA and FSA)
- Employer-paid short-term and long-term disability coverage
- Employer-paid life insurance and AD&D insurance
- 401k program with company match
- Discretionary time off
- Ten (10) paid holidays
- Fitness membership reimbursement
- Flexible hours and work-from-home days
- Company-provided equipment, including laptop and cell phone

Equal Opportunity Employer

Aulick Engineering is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, religion, national origin, age, sexual orientation, disability, veteran status, genetic data, or other legally protected status.
