

## Engineering Discipline Manager – Roadway Drainage / Erosion Control

---

### About Us

Aulick Engineering is a woman-owned small business that provides engineering design and construction management services for transportation projects. Aulick provides quality professional services to airports, DOTs, municipalities, engineering firms, and commercial developers around the southeast.

Aulick Engineering offers team members the opportunity to grow at their own pace without being boxed into a typical role. Our closely-knit team will work directly with you to provide a challenging, rewarding, and hands-on experience in all aspects of our work. Team members are given the opportunity to work on numerous aspects of projects where they can be involved from concept design to construction. Aulick Engineering strives to provide a workplace where hard work is recognized and rewarded while still encouraging a healthy work-life balance. Our team members are kind, resourceful, respectful, and trustworthy and we are looking for others who share those values.

### Job Description

We are seeking an Engineering Discipline Manager with a focus on roadway drainage and erosion control. This position is preferably based in Atlanta, GA, with flexibility to be located in our Columbia, Charleston, Greenville, or Durham offices. The ideal candidate will bring strong technical expertise, proven leadership skills, and extensive experience with GDOT drainage and erosion control projects.

### Qualifications

- Bachelor of Science in Civil Engineering required
- Professional Engineer (PE) license required
- 15+ years of relevant experience in roadway drainage and erosion control required
- Prior people management experience, including managing teams of multiple engineers, required
- Experience preparing cost proposals and managing project budgets required
- Plan production experience and knowledge of MicroStation required
- Knowledge of StormCAD, Geopak Drainage, OpenRoads, HY8, and/or CivilStorm preferred
- GDOT experience in drainage and erosion control required
- GDOT roadway design experience a plus
- GSWCC Level II Certified Erosion Control Plan Reviewer certification a plus
- Experience with project management and project accounting required, including a general understanding of rate development and overhead as it relates to project setup, management, and invoicing
- Design-build project experience a plus
- Proficiency in Microsoft Office Suite required

### Responsibilities

- Lead projects and manage teams focused on drainage design, culvert/bridge hydraulics, stormwater design, and erosion control plan development for roadway projects
- Manage and mentor Project Managers/Team Leads and other technical staff within the discipline
- Oversee current and future workload within the discipline, including marketing efforts to secure new work
- Responsible for meeting monthly billing goals within the discipline
- Prepare project approaches, cost proposals, and contracting documents
- Maintain strong client relationships and participate in scoping and project meetings as needed

### Benefits

- Medical insurance
- Vision and dental insurance
- Healthcare and dependent care flexible spending accounts (HSA and FSA)
- Employer-paid short-term and long-term disability coverage
- Employer-paid life insurance and AD&D insurance
- 401k program with company match
- Discretionary time off
- Ten (10) paid holidays
- Fitness membership reimbursement
- Flexible hours and work-from-home days
- Company-provided equipment, including laptop and cell phone

### Equal Opportunity Employer

Aulick Engineering is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, religion, national origin, age, sexual orientation, disability, veteran status, genetic data, or other legally protected status.
