

## Project Manager – MS4

---

### About Us

Aulick Engineering is a woman-owned small business that provides engineering design and construction management services for transportation projects. Aulick provides quality professional services to airports, DOTs, municipalities, engineering firms, and commercial developers around the southeast.

Aulick Engineering offers team members the opportunity to grow at their own pace without being boxed into a typical role. Our closely-knit team will work directly with you to provide a challenging, rewarding, and hands-on experience in all aspects of our work. Team members are given the opportunity to work on numerous aspects of projects where they can be involved from concept design to construction. Aulick Engineering strives to provide a workplace where hard work is recognized and rewarded while still encouraging a healthy work-life balance. Our team members are kind, resourceful, respectful, and trustworthy and we are looking for others who share those values.

### Job Description

We are seeking a Project Manager with experience in roadway MS4 projects to join our team in Atlanta, Columbia, Charleston, Greenville, or Durham. The ideal candidate will thrive in a fast-paced, growing environment and should meet the qualifications outlined below.

### Qualifications

- Bachelor of Science in Civil or Environmental Engineering
- Professional Engineer (PE) license preferred
- Minimum of 5-10 years of experience, with most or all of that time focused on roadway MS4 projects (GDOT experience preferred)
- Proficient in Bentley OpenRoads and Hydraflow Hydrographs; knowledge of MicroStation and plan production preferred
- Familiarity with stormwater modeling and design tools such as StormCAD, CivilStorm, and HY-8 is a plus
- Project management experience a plus
- Strong understanding of DOT requirements and procedures, specifically related to drainage, stormwater, and erosion control
- General working knowledge of fundamental engineering principles including surveying, geometric design, hydraulics, hydrology, stormwater management, grading, and construction management
- Proficient in Microsoft Office Suite

### Responsibilities

- Lead and support projects focused on roadway MS4 compliance, stormwater design, and erosion control plan development
- Develop drainage calculations, stormwater reports, technical documentation, and plan production in accordance with DOT standards
- Prepare Erosion, Sedimentation, and Pollution Control Plans for roadway projects

- Create drainage layouts, profiles, and drainage area maps for incorporation into roadway plans
- Ensure compliance with MS4 permit requirements and applicable local, state, and federal regulations
- Visit job sites for inspection and evaluation of drainage systems and stormwater infrastructure
- Attend client meetings and coordinate with DOT staff as needed
- Manage tasks or small projects with the support of a Project or Discipline Manager, providing guidance to junior staff as appropriate
- Perform other responsibilities as assigned

### Benefits

- Medical insurance
- Vision and dental insurance
- Healthcare and dependent care flexible spending accounts (HSA and FSA)
- Employer-paid short-term and long-term disability coverage
- Employer-paid life insurance and AD&D insurance
- 401k program with company match
- Discretionary time off
- Ten (10) paid holidays
- Fitness membership reimbursement
- Flexible hours and work-from-home days
- Company-provided equipment, including laptop and cell phone

### Equal Opportunity Employer

Aulick Engineering is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, religion, national origin, age, sexual orientation, disability, veteran status, genetic data, or other legally protected status.
